# Environmental Policy Statement

Chesterfield Special Cylinders Ltd ("CSC") recognises that its activities have an impact on the environment. Managing this impact is an integral part of responsible corporate governance and good management practice. The policies laid out in this statement are mandatory for all employees. Overall responsibility for the implementation of these policies is the responsibility of the senior management of CSC.

We will comply with both the letter and the spirit of relevant environmental regulations. Additionally CSC will actively participate in industry and governmental environmental consultative processes.

We will apply the requirements of ISO14001:2004 and implement an effective environmental management system.

CSC is committed to the continuous improvement of its environmental management system. Specifically CSC will seek to reduce waste and use of energy and prevent pollution.

As part of continuous improvement, it is our policy to establish measurable environmental objectives and communicate these to all employees. These documented objectives will be periodically reviewed as part of the internal audit and management review process. The necessary personnel and financial resources will be provided to meet these objectives.

It is the responsibility of everyone within CSC to minimise our environmental impact. Employees will be given such information, training and equipment as is necessary to enable them to undertake their work with the minimum impact on the environment.

Copies of this environmental policy will be prominently displayed at our Meadowhall Road site and on our website.
